

# ECZEMA ITCHED AWFULLY ON HEAD

Thought Would Go Wild, Dry and Flaky, Hair Nearly All Came Out. Used Cuticura Soap and Ointment Three Months. Head All Cured.

29 Addison St., Bellows Falls, Vt.—"I had eczema on my head and it itched something awful. It seemed sometimes as though I would go wild. The eczema was dry and flaky. One day I combed it hard with a fine comb and made it all raw. My hair nearly all came out gradually so I had a small twist of hair and did not use but one hairpin to hold it. "I tried—but in vain; it did no good. Then I thought I would try Cuticura Soap and Ointment. I used them three months and then my head was all cured and my hair began to grow so it is quite thick now. I have four times as much as I had." (Signed) Mrs. Ellen W. Adams, Nov. 16, 1912.

## FOR PIMPLES AND BLACKHEADS

The following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores, the common cause of these distressing facial eruptions. Sold throughout the world. Liberal sample of each mailed free, with 25¢ Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

returned to service within a few weeks. OBITUARY. Francis Vandale.

Francis Vandale, 54, died at his home here late Sunday night. He was a native of St. Robert, Canada. He was employed here as a mill operative.

Has Passed State Examination. Arthur Frederick Libby received notice Monday that he had successfully passed the examinations, recently taken at Hartford, for admission to practice law in Connecticut. Mr. Libby will go to Hartford on Thursday to be admitted. Mr. Libby is a graduate of Dartmouth college, and of Harvard Law school, 1910. Mr. Libby has not decided as yet in which Connecticut town he will commence to practice law.

Railroad Man's Lapse on Duty's Part. Presiding at the session of the city court Monday morning, the first session for just a week, Judge J. Harry Mann imposed his first jail sentence upon a prisoner—30 days, for George Franklin of Battle Creek, Mich. Franklin was charged with intoxication, breach of the peace and assault. The man is a railroad trainman and left his train in Putnam on his way to East Hartford Saturday night. Franklin drank liquor and was very drunk, and was eventually fell asleep with his head toppled over in a girl's lap. The girl was frightened and this circumstance was not forgotten when Judge Mann imposed sentence on the prisoner.

Church Collectors Dined. Rev. Charles F. Bedard, pastor of St. Mary's church, presiding at the dinner given at St. Mary's rectory Sunday evening at 6 o'clock. The dinner was an excellent one and the social spirit very keen. The collectors present were Hector Duvert, John H. Byrne, Richard Gorman, Joseph Plessis, P. M. Leclaire, J. J. McGarry, Thomas P. Ryan, Isaac Champagne, J. A. P. Gagne, Frederick Bonneau. The dinner to the collectors is an annual event. Next Sunday Rev. Father Bedard will read his report to the congregations at all of the masses.

All Sorts of Weather. What the weather man has failed to do in that part of the present winter that is past and gone he tried hard to make up for Monday by crowding in the kind of weather that he keeps in stock into 24 hours and the result was the thickest day that has been experienced hereabouts in many moons. All day long the wind swept the city in a howling gale. Gusts of wind that threatened to sweep pedestrians off their feet and which actually did sweep away about everything movable, especially dust, tore through the city streets, driving everyone to cover wherever and whenever the option could be exercised. The blasts were icy, too, the coldest of the winter, and while no one else was particularly elated over the Arctic conditions, the looms of disaster in this and nearby towns.

# WHY PHYSICIANS RECOMMEND CASTORIA

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First—The indisputable evidence that it is harmless; Second—That it not only allays stomach pains and quiets the nerves, but assimilates the food; Third—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is

unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Lester, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Seeley, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's ailments. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. I. McCann of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Edward James, of New York, City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Boserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

A MUNICIPAL DANCE HALL TO PROMOTE ACQUAINTANCE. Prof. Johnson's Plan to Improve Marriage Selections.

Battle Creek, Mich., Jan. 12.—Marriage selection, education for race betterment, especially along lines of eugenics, and the dependent child were some of the principal topics of discussion at the closing session tonight of the national conference on race betterment. Among the speakers were Prof. Rowell Hill Johnson of the University of Pittsburgh, Prof. Winfield Scott of Northwestern University and Dr. Gertrude R. Hall of the state board of charities of New York.

Professor Johnson urged the widest possible range of acquaintance for young people, claiming that the school and church do not offer sufficient advantages in that respect. He suggested the municipal dance hall as a beneficial step in that direction. Eugenics seeks improvement in both mental and physical racial qualities of future generations, he said.

School teachers should not smoulder the responsibility of teaching sex hygiene to the young, said Professor Hall in the discussion of education for race betterment. He declared it was important, however, that the school teacher should supplement home teaching and should assure purity of atmosphere in school by close supervision of recreation periods.

"It will be no easy task to improve the race so there will be few or no dependent children," said Dr. Gertrude Hall.

The gradual elimination of the dependent child, however, will be one of the best indications of superiority in our national stock and in our civilization.

"This country of ours is big enough and rich enough so that every family ought to find room enough to live, and the sure of steady employment at a living wage. Society should take measures to prevent the grinding poverty and decrees which wreck some homes and thereby create a better parenthood and neighborhood life."
